GARVV BALODI

New Delhi, India — balodigarv18@gmail.com — +91 8851770960 — LinkedIn

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in **SQL, Python, Power BI, statistical analysis, and applied machine learning**. Skilled at analyzing large datasets, defining business metrics, building dashboards, and delivering actionable insights. Strong focus on data quality, automation, predictive modeling, and stakeholder reporting to support data-driven decision making.

CORE SKILLS

Data Analysis: Data Analysis, Exploratory Data Analysis (EDA), Business Analytics, Business Insights, KPI Definition, Trend Analysis, Root Cause Analysis, Forecasting
Programming: Python (Pandas, NumPy, Scikit-learn), SQL
SQL: Advanced Queries, Joins, Subqueries, CTEs, Window Functions, Aggregations, Query Optimization
Visualization: Power BI (Dashboards, KPIs, DAX, Data Modeling), Matplotlib, Seaborn
Data Engineering: ETL Pipelines, Data Cleaning, Data Validation, Automation, Data Quality Checks
Cloud: AWS (Basic)

PROFESSIONAL EXPERIENCE

Data Analyst Intern *Apr 2025 – Aug 2025*
Uolo EduTech Pvt. Ltd.

- Performed data analysis on large operational datasets using **SQL and Python** to support business decisions.
- Designed and automated **Power BI dashboards** with KPIs and metrics, reducing reporting effort by **30%**.
- Built a scalable **data validation framework** for **10,000+ records**, improving data accuracy to **97.5%**.
- Conducted **trend and root cause analysis** to identify **12% operational inefficiencies**.
- Collaborated with cross-functional stakeholders to translate business requirements into analytical insights.

PROJECTS

Pharmaceutical Sales Analytics *(Python, SQL, Power BI, Machine Learning)*

- Built a predictive sales forecasting model using historical sales data and machine learning techniques.
- Identified underperforming regions through trend analysis, improving targeting precision by **15%**.
- Automated ETL pipelines and reporting workflows, saving **4.5 hours per reporting cycle**.

E-commerce Transaction Analysis *(Python, Pandas, Statistical Analysis)*

- Cleaned and analyzed **30,000+ transaction records** using Python and Pandas.
- Implemented automated **data quality and validation checks**, reducing inconsistencies by **35%**.
- Applied statistical analysis to extract customer behavior insights for business decision making.

EDUCATION & CERTIFICATIONS

Bachelor's Degree (Completed) — Delhi University (SOL) 2023–2025
Advanced SQL for Data Analysis — Great Learning — Python for Data Science — IBM — Google Data Analytics Professional Certificate (In Progress)

ADDITIONAL SKILLS

Stakeholder Communication — Business Requirements Gathering — Cross-functional Collaboration — Problem Solving — Data-Driven Decision Making
