PROFESSIONAL SUMMARY

Data Analyst with 1 year of experience automating multi-source reporting pipelines and building Power BI and Tableau dashboards that drive workforce, operational, and funding decisions. Proficient in SQL, Python, and data visualization, with a track record of improving data integrity and reporting accuracy across 40+ stakeholder groups and 25+ regions. Skilled in dashboard development, ETL automation, root-cause analysis, and stakeholder reporting. Pursuing further specialization in Data Science, Machine Learning, and Advanced Analytics.

CORE SKILLS

Languages & Query: SQL (MySQL, SQL Server), Python (Pandas, NumPy, Matplotlib), DAX, Power Query (M)

BI & Visualization: Power BI, Tableau, Excel (PivotTables, VLOOKUP, XLOOKUP)

Analytics: Data Analysis, Dashboard Development, KPI Reporting, Data Validation, ETL Pipelines, Reporting Automation, Root Cause Analysis, Statistical Analysis

Tools & Certs: GitHub, Jira, Power BI Service, Agile/Scrum — Certified: SQL Programming, Python for Data Analysis

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Apr 2026 – Jun 2026

Bluestock Fintech | Remote

- Reduced dashboard reporting turn around by 35% by redesigning SQL queries, views, and stored procedures across 5+ recurring Power BI dashboards used for weekly KPI reviews.
- Improved data reliability for 40+ stakeholder groups by implementing daily data validation checks that flagged and resolved discrepancies before distribution.
- Reduced undocumented process dependency by documenting reporting logic and dashboard specifications, streamlining team handoffs.
- Maintained dashboard accuracy over time by monitoring performance and usage, updating logic as source data and business rules changed.

Data Analyst Intern

Apr 2025 – Sep 2025

Uolo Edu Tech Pvt Ltd | Gurugram, India

- Delivered KPI-tracking Power BI dashboards adopted for strategic decision-making by partnering with product, operations, and leadership teams to gather reporting requirements.
- Cut production data issues by 25% by conducting root-cause analysis on data discrepancies, improving transaction reliability.
- Informed funding and program strategy decisions by analyzing regional performance data across 25+ regions using SQL.

PROJECTS

Sales Market Analysis

Power BI, Python

- Identified profitability-linked customer segments by analyzing 7,043+ records/customer for patterns in data, contract type, and monthly charges.
- Surfaced a key churn risk insight — 38% of users on monthly contracts had under 3 months' tenure — by building 11 visualizations (histograms, box plots, heatmaps).

Pharmaceutical Sales Report

SQL, Power BI, Excel

- Enabled real-time tracking of regional sales, returns, and product performance by building 10 dynamic Power BI measures and KPIs.
- Triggered a targeted marketing recovery plan by detecting a 14% post-period sales drop in the South region through trend analysis.

EDUCATION

Bachelor's Degree

May 2025

Delhi University | New Delhi, India

- Completed Graduation
- GPA 67.5
