PROFESSIONAL SUMMARY

Data Analyst with 1+ years of experience automating multi-source reporting pipelines and building Power BI and Tableau dashboards that drive workforce, operational, and funding decisions. Improved data integrity and reporting accuracy across 40+ stakeholder groups and 25+ regions using SQL, Python, and Microsoft tools. Pursuing Data Science focused on data analytics and machine learning

PROFESSIONAL EXPERIENCE

Data Analyst | Bluestock Fintech | Remote

April 2026 – Jun 2026

- Maintain 5+ recurring Power BI dashboards used across multiple teams for weekly KPI reviews
- Designed and optimized SQL queries, views, and stored procedures to improve reporting performance by 35%
- Manage data validation across daily reporting cycles, flagging and resolving discrepancies before distribution
- Document reporting logic and dashboard specs to support handoffs and reduce reliance on undocumented processes
- Monitor dashboard performance and usage, updating logic as underlying source data or business rules change

Data Analyst | Uolo Edu Tech Pvt Ltd | Gurugram

April 2025 – Sep 2025

- Partnered with cross-functional product, operations, and leadership teams to gather reporting requirements and deliver Power BI dashboards supporting KPI tracking and strategic decision-making
- Developed 10+ Power BI dashboards analyzing workforce and operational KPIs across multiple programs
- Conducted root-cause analysis on data discrepancies, reducing production issues by 25% and improving transaction reliability
- Analyzed data and regional performance data using SQL across 25+ regions, delivering insights used directly in funding and program strategy decisions

Portfolio

[Stock Market Analysis](#) | Power Bi , Python

- Analyzed more than 7,043 Stocks to identify patterns based on tenure, contract type, and monthly charges.
- Generated 11 visualizations (histograms, box plots, heatmaps) to highlight Profitable-prone segments.
- Revealed that 38% of users were on monthly contracts with less than 3-month tenure—suggested early

[Pharmaceutical Report](#) | SQL, Power BI, Excel

- Built 10 dynamic measures and KPI'S in Power BI to track regional sales, return trends, and product performance.
- Created multipage dashboards with slicers and filters, helping stakeholders drill down by region, product category, and time.
- Detected a 14% sales drop post-region in the South region. Later, the insight was used for a marketing recovery plan.

SKILLS

Technical Skills: SQL (MySQL, SQL Server), Python (Pandas, NumPy, Matplotlib), Power BI (Power Query, DAX), Tableau, Microsoft Excel (PivotTables, VLOOKUP)

Data & Analytics: Data Analysis, Workforce Analytics, Dashboard Development, Reporting, Data Validation, Data Integrity, ETL Pipelines, Reporting Automation

Tools: GitHub, Jira,

Certifications: SQL Programming, Python

EDUCATION

Delhi University, New Delhi
Completed Bachelors

May 2025
GPA: 6.0
